

Rolling Training Duffel

The ASP RTD Rolling Training Duffel is purpose built for the rigors of Integrated Training. It was designed from the ground up to withstand long years of heavy duty use. Ballistic weave construction, easy access pockets and distinctive identification result in a rugged police quality carrier.

ASP Trainers travel the world. They conduct Baton, Restraint and Light training in 102 countries. Their equipment is heavy. Their trips are often long. Organizing, protecting and transporting ASP products for their training requires cases that are designed for the rigors of international travel. The Rolling Training Duffel is that case.
