

Triad[®] DF

18650 RECHARGEABLE

CR123A BATTERIES

- Dual Fuel 18650 or CR123A
- Micro USB Charge Port
- Type III Hardcoat Anodizing
- Foamed Vinyl Grip
- Reversible Snap-Loc Clip
- Intermittent · Locked · Constant Switch

The Dual Fuel Triad[®] DF adds a micro USB charge port, internal charge circuit and Lithium-ion power cell to this signature ASP design. Premium Triad features remain. A foamed vinyl grip complements a matte black Type III hardcoat anodized aerospace aluminum body. The four cut switch rotates to an Intermittent · Locked · Constant position. A replaceable Snap-Loc™ Clip may be attached lens up or lens down. All connectors and springs on the Triad DF are gold plated. The electronic circuit board drives a Cree XPG LED to an impressive level of brightness. The unique ASP Double Tap technology allows instant access to a 15 lumen low level output.

Loosening the head of the Triad reveals the micro USB charge port. Attach the retractable charging cable to the supplied Car Charger, Wall Charger or to a computer USB port. Even a micro USB cell phone charger can be used to recharge the Triad DF. The battery indicator of the Triad blinks red when charging. It turns solid green when fully charged. The Wall Charger, Car Charger and retractable charge cord are encased in a zippered ballistic carrier. The Car Charger and Wall Charger have a blue LED indicator to confirm that the power source is active.

Dual Fuel Technology of the Triad DF allows use of CR123A primary cells. The batteries are unaffected by the Triad DF charge circuit.

Rapid to charge. Simple to use. The Triad DF by ASP. Simply Brilliant.

Triad DF . . . Simply Brilliant

The Triad® DF can also be powered by two CR123A batteries.

Background

Designed to professional law enforcement standards
Aerospace aluminum construction
Precision machined
No sharp edges
O-ring sealed for maximum water resistance
Distinct profile
Dual Fuel

Specifications

Length	6.25"	158.7 mm
Diameter	1.4"	35.6 mm
Weight	6.72 ounces	190.5 grams
	(with batteries)	

18650

System	3.7 volt
High Output	550 lumens (ANSI Standard)
Low Output	15 lumens (ANSI Standard)
High Run Time	3 hours
Low Run Time	80 hours

CR123A

System	6 volt
High Output	580 lumens (ANSI Standard)
Low Output	15 lumens (ANSI Standard)
High Run Time	1 hour 30 minutes
Low Run Time	68 hours

Body

6061 T6 high strength aluminum
Matte black finish
Type III hardcoat anodized
Coated threads for durability
Exterior and interior scratch and corrosion protection

Foamed vinyl grip
Front clip groove
Rear clip groove

Snap-Loc Clip

Detachable
Reversible

Power Cell

Proprietary
Rechargeable
18650 Lithium-ion battery
3.7 volt
2200 mAh
PTC protected
PCM protected
Overcharge protection
Fast discharge protection
Short circuit protection
Leak proof
Vibration resistant
Ten year shelf life
Link case

Charge System

Micro USB
Flashing red charging
Solid green fully charged

Power Cell Tube

Foamed vinyl grip
O-ring sealed

Locking Switch

Back mounted
Quick and positive switch location under stress
O-ring sealed activation button

Locked (center)

Constant on/off switch activation (right)

Intermittent switch activation (left)

O-ring sealed switch cover

PC board positive circuit contact

Sensitive and quiet switch activation

Computer micro switch controlled

Self-cleaning (no carbon buildup)

Fail safe (backup) switch circuits

Replaceable modular switch assemblies

O-ring sealed connection to the light body

Rotate one full turn to prevent accidental activation

Reflector Assembly

Parabolic
Extremely durable
Computer calculated ray traces
Long distance penetrating beam
Room illuminating halo
Tempered optical glass lens
Gasket sealed

LED Assembly

Cree XPG LED
Proprietary heat management
Custom driver
Smart chip technology
Gasket sealed

Belt Case

Injection molded

Travel Case

Ballistic Weave
Zippered

Warranty

Limited Lifetime

The Snap-Loc™ clip may be attached to either the bezel or the switch end of an ASP light.

Charging Accessories are ASP designed to provide peak performance with a compact profile.

NOTE: Use only ASP 18650 Lithium-ion rechargeable batteries with Triad DF lights.
