

FOLKWEAR®

229 Sizing and Yardage Requirements

The 229 Sailor Pants are sized for men or women, waist size 30-42. These do not follow Folkwear's typical grade rule. See chart below to find the best size for you. We recommend making a simple muslin to ensure fit. Hip, waist, and upper thigh measurements are most important, and the pattern can be graded between sizes if you fit between sizes.
