- Weight Storage Post
- Easy-Move Casters
- Extended Warranty
- Quick and Easy Assembly

DIMENSIONS & WEIGHT

L 61" W 33" H 58" Weight: 150 lb.

AbCoaster FT

AbCoaster FT incorporates functional training into the original AbCoaster CTL. In addition to all the same features as the original CTL, the FT includes a knee pad that has been split into two, so you can now move your legs independently while exercising. A user can still move their knees together while exercising, but now a user can also move them independently as well, which allows a person to obtain functional training benefits during core exercise.

FEATURES

- Split Knee Pad for Functional Training
- Heavy-Duty Steel Construction
- Urethane Molded Foam Pads
- Adjustable Hand Grips
- Free-style Motion Seat
- 450 lb. User Weight Capacity
- 40 lb. Olympic Weight Capacity
- Weight Storage Post
- Easy-Move Casters
- Extended Warranty
- Quick and Easy Assembly

DIMENSIONS & WEIGHT

L 51" W 41" H 57" Weight: 150 lb.

AbCoaster CTL

The CTL is a unique, alternative way to work your abs from the "bottom up"—without any rails. The trackless CTL features a frictionless resistance system making the motion very easy for any user, including deconditioned and rehab patients. The CTL makes for easy maintenance and super-quiet operation.

FEATURES

- Heavy-Duty Steel Construction
- Urethane Molded Foam Pads
- Adjustable Hand Grips
- Free-style Motion Seat
- 450 lb. User Weight Capacity
- 40 lb. Olympic Weight Capacity
- Weight Storage Post
- Easy-Move Casters
- Extended Warranty
- Quick and Easy Assembly

DIMENSIONS & WEIGHT

L 51" W 41" H 57" Weight: 130 lb.
