

The Standard In Teak - Limited Edition

Music And Design In Equal Measure

This special release features FSC®-certified plantation teak, known for its rich tones and rhythmic patterning. The upgraded slatted doors are precisely book-matched to emphasize the beautiful grain, while warm white speaker covers and brass legs provide a balanced contrast for a timeless appeal. Featuring six music listening modes and record storage for up to 135 albums. The Standard in Teak is a limited edition of 100 consoles handbuilt in sunny San Diego.

FINISH

Teak
