**Step 1:** with a dotting tool, mark the middle of your “swirly flowers”

**Step 2:** with your knowledge from worksheet 02, start to paint the petals of your “swirly flower”. There are 3 petals belong to the middle of the flower. Each petal is different in size.

**Step 3:** go to the next flower. Be careful, the direction of the petals are a bit different here.

**Step 4:** connect the two middles with a fine line

**Step 5:** create another "swirly flower"

**Step 6-7:** continue with some more flowers. Don't forget to connect them with a fine line.

**Step 8:** draw fine lines in the middle area.

**Step 9:** draw fine lines again. Make sure they cross each other.

**Basic strokes**

**Your design of the day.** Follow the example. Paint it over. Try to recreate it.
