How to begin

Contact us by email or phone, and we'll be happy to discuss your project with you and to provide a sample inscribed tile.

Here are some of the decisions you'll need to make early in your campaign:

- **wall tiles vs. pavers, and where to place your project.**

Consult with your tile setter. A professional can evaluate whether an existing wall is appropriate for tile and can advise you about your site's suitability for walkways or patios if you choose pavers.

- **tile size and price.**

You can distinguish different levels of giving through tile sizes. We can also customize major donor tiles with logo stamps and glazing.

If you choose not to use glaze, the grout that flows into the inscription when it is set, will allow plenty of contrast for legibility.
