—LEGAL—

The contents of this book rely on data published by the United States Government and its various agencies and departments, including but not limited to the General Land Office—Bureau of Land Management, the Department of the Interior, and the U.S. Census Bureau. The author has relied on said government agencies or re-sellers of its data, but makes no guarantee of the data's accuracy or of its representation herein, neither in its text nor maps. Said maps have been proportioned and scaled in a manner reflecting the author's primary goal—to make patentee names readable. This book will assist in the discovery of possible relationships between people, places, locales, rivers, streams, cemeteries, etc., but "proving" those relationships or exact geographic locations of any of the elements contained in the maps will require the use of other source material, which could include, but not be limited to: land patents, surveys, the patentees' applications, professionally drawn road-maps, etc.

Neither the author nor publisher makes any claim that the contents herein represent a complete or accurate record of the data it presents and disclaims any liability for reader's use of the book's contents. Many circumstances exist where human, computer, or data delivery errors could cause records to have been missed or to be inaccurately represented herein. Neither the author nor publisher assume any liability for errors, inaccuracies, omissions or other inconsistencies herein.

No part of this book may be reproduced, stored, or transmitted by any means (electronic, mechanical, photocopying, recording, or otherwise, as applicable) without the prior written permission of the publisher.
