

2" Polypropylene Self-Priming Centrifugal Pump Electric Motor Drive Pumps

FEATURES

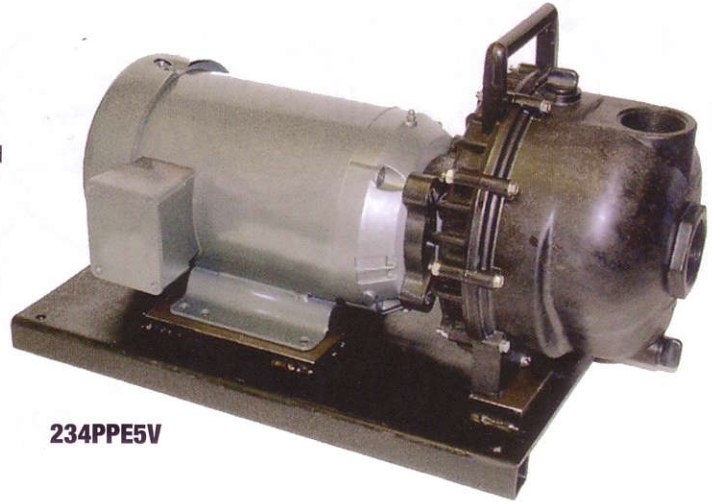

- Precision molded construction.
- Lightweight.
- Corrosion resistant.
- Superior design.
- Low maintenance.

Maximum Motor Protection!

We have designed the new Banjo poly pump to protect the motor seal in the event of pump seal failure. We have separated the pump from the motor by 1" spacer and installed a special slinger/shaft seal that completely protects the engine from any corrosive fluids. This new slinger design is the best in the poly pump industry at protecting your motor.

CAUTION-WARNING: Please do not run pump dry, restrict or reduce port sizes, or dead head pump. This could cause component failure to pump.

DO NOT USE WITH FLAMMABLE LIQUIDS.
