

Acina 10W

CCT Colour Changable Recessed Dimmable LED Downlight Luminaire

The Acina 10W is a fully dimmable energy efficient 10w IP44 recessed LED downlight luminaire with frosted acrylic lens using high brightness Samsung SMD LEDs that allows high luminous efficacy with minimal energy consumption and excellent thermal performance.

The downlight comes with the option of changing the colour temperature from 3000k Warm White to 4000k Neutral White to 6000k Cool White simply by adjusting the switch at the back of the light fitting before it is installed, you can decide what colour temperature you want and in what room you want it, all with the one fitting.

90mm-100mm

- W - 3000K Warm White
- D - 4000K Neutral White
- C - 6000K Cool White

Installation Instructions

PLEASE READ THESE INSTRUCTIONS CAREFULLY BEFORE INSTALLATION OF THE PRODUCT

- 1 Cut out a 90mm diameter hole in the ceiling.
- 2 Ensure power supply is disconnected at the mains before initiating installation of the Luminaire. Once the mains power has been turned off make the electrical connection to the power supply.
- 3 Lift and hold the mounting springs on both sides of the luminaire and pass the luminaire through the aperture. With the springs now up in the void, gently allow the springs to release, the luminaire should then hold itself flush to the ceiling surface.
- 4 Mains power supply can now be reconnected.

IT IS RECOMMENDED THAT THESE LUMINAIRES BE INSTALLED AND FITTED BY A LICENSED ELECTRICIAN IN ACCORDANCE WITH CURRENT WIRING REGULATIONS
