## About Us

Every product innovation stems from a necessity, and DUEX is no different.

Mobile Pixels, Inc.'s co-founder, Jack, was constantly frustrated by the limits of his screen space. Feeling strangely nostalgic about the work monitor he used at his previous job, he decided to build a laptop monitor from a broken laptop.

That is how our first product Mobile Pixels DUEX was born. We combined the best technology in the market to create a lightweight portable monitor that increases your productivity and makes working efficient.
