For Anywhere Work Takes You

Safety Precautions

- 1.** Read all warnings and follow all instructions . Keep this user guide for later reference.
 - 2.** Do not use this device near water. To reduce the risk of fire or electric shock, do not expose the device to moisture.
 - 3.** Do not place the device on an uneven or unstable surface. The device may fall over resulting in an injury or malfunction.
 - 4.** Avoid exposing the device to direct sunlight or other sources of sustained heat.
 - 5.** Always use genuine Mobile Pixels components to ensure safety and product performance.
 - 6.** To avoid the risk of electric shock or component damage, switch off the power before connecting other components to the display.
 - 7.** Disconnect the power plug from the AC outlet if the device will not be used for a long period of time.
 - 8.** When connecting to a power outlet, DO NOT remove the grounding prong. Please ensure grounding prongs are NEVER REMOVED.
 - 9.** Place the device in a well-ventilated area. Do not place anything on the device that prevents heat dissipation.
 - 10.** The power adaptor must be replaced when using different voltage from that specified in the User Guide. For more information, please contact us.
 - 11.** Do not overload power strips and extension cords. Overloading can result in fire or electric shock.
 - 12.** Do not apply pressure to the screen. Excessive pressure may cause permanent damage to the display.
 - 13.** Plastic bags can be dangerous. Keep plastic bags away from babies and children to avoid danger of suffocation.
 - 14.** Do not attempt to repair the product by yourself. Opening the back cover may expose you to high voltages, the risk of electric shock, and other hazards. If repair is required, please contact us anytime.
 - 15.** If there are visual smoke or sparks, unplug the power cord and contact us. Do not try to repair the product yourself.
 - 16.** To avoid risk of electric shock , do not touch the power plug and ports with wet hands.

Troubleshooting

Problem	Troubleshooting advice
Missing pixels spots and light leaks on the screen	Turn off and on again. Restore the monitor to factory settings. Use OSD to adjust brightness and contrast. Pixels that are permanently off are an inherent defect in LED technology.
Display fails when switching	Make sure that the video cables of the monitor and HDMI output device are properly connected. Reset the monitor to factory settings.
Picture is missing colours	Make sure the video cable connecting the monitor and the computer is properly connected. Adjust custom R/ G/ B values. Colour in the colour menu of OSD.
Screen image is too small	Restore the monitor to factory settings.
OSD does not appear on the screen	Turn off the monitor, disconnect and reconnect the power cord, and turn on the monitor.
No picture, indicator light is red	Check the signal source. Make sure the computer or phone is not sleep mode. Check that the signal cable is properly inserted. Reconnect the signal cable if necessary. Restart your computer or phone.

Troubleshooting

Problem	Troubleshooting advice
The picture does not fill the entire screen.	Since the resolution of the same screen of the mobile phone can be re-scaled (aspect ratio), the display can be displayed in full screen. Computer equipment can be set to 16:9 resolution, the display can be full screen display Play a video source with a 16:9 video sources, and the monitor can display full screen.
