

A LESS INVASIVE SOLUTION TO TRADITIONAL CONCRETE PADS

Revolutionizing sport surface installation and eliminating the need for concrete or asphalt.

As a result, our Base Panel offers a less invasive approach to creating a solid, yet permeable foundation for a variety of permanent or temporary sport surfaces.

A GREAT SOLUTION FOR:

SPORT TILES
ATHLETIC FIELDS
GOLF TURF
ROOFTOP GREENSCAPES
RUBBER FLOORING

VERSATILE APPLICATION

The open grid design makes for an efficient installation process and is a versatile solution for various sport tile and turf systems.

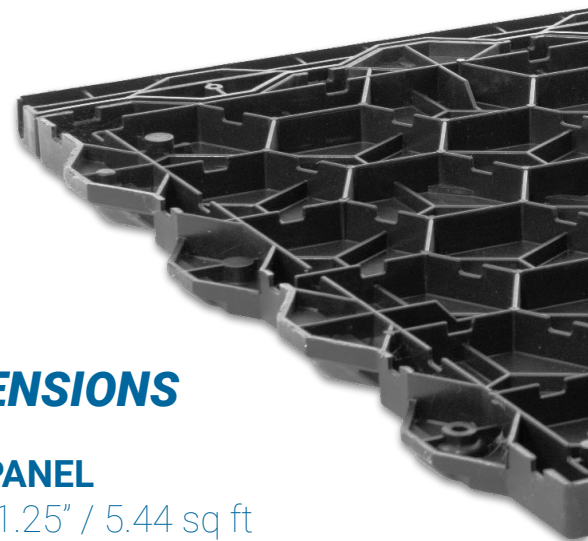

PERMEABLE DESIGN

To maintain proper drainage and prevent water pooling; ensuring a durable and weather-resistant foundation.

CONCRETE-FREE INSTALLATION

In lieu of a concrete or asphalt pad, our Base Panel acts as a highly robust foundation and is installed directly over geotextile fabric and compacted aggregate.

DIMENSIONS

PANEL

28" x 28" x 1.25" / 5.44 sq ft
30" x 30" (Actual)

TRIM

28" x 1.5" x 1.25"

CORNER

1.5" x 1.5" x 1.25"
