REV. 2-6-03

BUELL XB CHROME PASSENGER FOOTPEG BRACKETS

General

This kit is designed for installation on 2003 and later Buell XB9R and XB9S Model Motorcycles.

This kit consists of the following:

 Description
 Part Number

 Passenger footpeg bracket, right
 Not sold separately

 Passenger footpeg bracket, left
 Not sold separately

Installation

- Remove the passenger footpeg from the original passenger footpeg bracket as follows. Save all items for reinstallation onto the newpassenger footpeg bracket.
 - Remove the footpeg clip (2)
 - Remove the footpeg pin (7)
 - Remove the passenger footpeg (6), detent plate (3), ball (5) and spring (4)
- Remove the passenger heel guard. Save all items for reinstallation onto the new footpeg bracket.
 - · Remove the heel guard fasteners (9).
 - Remove the heel guard (10).
- Remove the existing passenger footpeg bracket. Save all hardware for installation of new passenger footpeg bracket:
 - · Remove and save the bolts (8).
 - · Remove and discard the existing footpeg mount (1).
- Install the new passenger footpeg bracket onto the tail frame as follows:
 - Position the bracket (1) onto the tail frame.
 - Install the bracket (1). Using LOCTITE 272 tighten fasteners (8) to 25-28 ft-lbs (34-38 Nm).
- Install the original heel guard using the hardware saved in Step 2 as follows:
 - Position heel guard (10) onto footpeg brackets (1).
 - Install heel guard (10), using LOCTITE 272. Tighten heel guard bolts to 48-72 in-lbs (5-8Nm).
- Install the footpeg and hardware saved in Step 1 as follows:
 - Position the footpeg (6), detent plate (3), ball (5), and spring (4) onto the passenger mounting bracket (1).
 - Install footpeg pin (7)
 - Install e-ring (2)

Check that footpeg clicks in the up and down position.

NOTE

All items in this illustration are the original equipment items, except the bracket, (Item 1).
