INSTRUCTION SHEET

-J00906 Kit Number 89000-97Y REV. 5-30-97

TANK MASK

General

This tank mask is designed to fit on 1997 and 1998 S3 and S3T motorcycles and 1998 S1W motorcycles.

Kit contents:

QTY	DESCRIPTION	PART NUMBER
1	Tank Mask	Not sold separately
4	Velcro clips	82010-97Y
1	Protective tape	82011-97Y

Installation

- Remove seat according to Service Manual instructions.
- Remove vent hose from top of gas tank to allow for easier installment of the tank mask. Slip elastic on front of tank mask under front of tank so that mask stays securely on bike. Reattach vent hose.
- See Figures 1 and 3. Pull tank mask so that it fits snugly over tank. The grommet at the base of the mask should line up with the seat screw.

ACAUTION

Carefully clean tank before applying tape in Step 4. Tank must be clean and dry or tape will not stick properly. Failure to use tape may cause scratches to paint from the velcro clips.

ACAUTION

Tape will adhere permanently. Be certain tape is in the correct position before placing it on the tank.

- Apply protective tape on tank so it lines up with the velcro strips under the tank mask. The tape should bend over the edge of the tank as shown to protect paint.
- See Figure 2. Place velcro clips over protective tape as shown
- Attach tank mask by pressing velcro under mask to velcro clips.
- See Figure 3. Secure tank mask to bike with screw as shown.
- Reinstall seat with tank mask in place according to Service Manual instructions.

AWARNING

After installing seat, pull upward on front of seat to be sure it is locked in position. If seat is loose, it could shift position during vehicle operation and startle the rider, causing loss of control and personal injury.

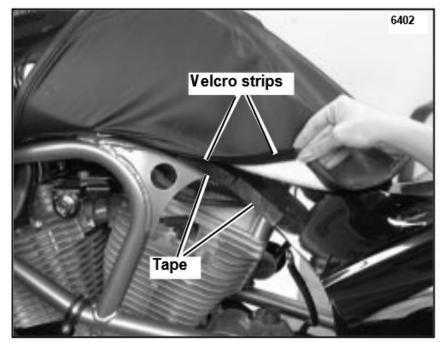

Figure 1. Line up protective tape underneath velcro strips.

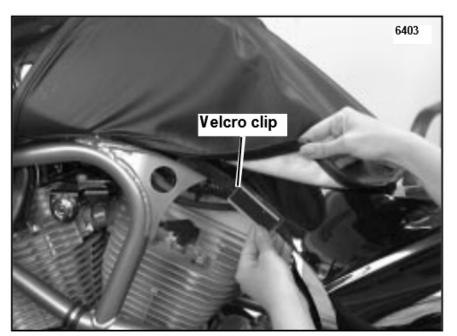

Figure 2. Install velcro clips over protective tape.

Figure 3. Secure tank mask to bike with screw.
