

# Personal Shopping

## **Personal shoppers aren't just for big spenders.**

*We can help you find clothing and accessories that are flattering, stylish, and budget -friendly!*

- Our competent stylists have a comprehensive understanding of types of fabric, garment construction, and how different clothing brands flatter diverse body types
- Our stylists also pick clothing and accessories in colors that will complement your skin tone and hair color

“We understand style for all ages, budgets, and body types”

-Amy King

## How It Works

### ***What does a private shopping party include?***

3130 Clothing will provide complimentary appetizers and beverages. A 3130 Clothing stylist will help with styling and shopping needs. Your guests will receive *10% off* their purchases. Plus, the hostess receives *20% off!*

### ***When can I host my party?***

You can schedule a day and time that works best for you. Your private shopping party will be held outside regular store hours, so you and your guests have the entire shop to yourself.

### ***Is there a minimum or maximum amount of people I can invite?***

Absolutely not! Bring along as many friends as you'd like or book a small party with just a few gals.

### ***Is there a minimum spending requirement?***

We do require a \$100 payment at time of booking. This payment is to secure your shopping day and time. The \$100 payment will be applied to your shopping cart as a credit towards your total at the end of your shopping experience.

This is a fun experience with no pressure to buy anything. If your total is less than your required \$100 payment, we will reimburse the remainder to your original form of payment,

### ***What if I want my party to be a fundraiser?***

Then you're so nice! For charity events, you and your guests will receive the regular ticketed price for all merchandise. 3130 Clothing will donate a percentage of your group's total sales back to the organization of your choice! The below percentage breakdown is shown below.

Total Event Spending	Percentage
\$ 1 - 1,000	10%
\$ 1,001 - 2,500	15%
\$ 2,501 - 5,000	20%
\$ 5,001+	25%
