

A portrait of Terence Tan, a middle-aged man with short grey hair and glasses, wearing a white turtleneck sweater and blue jeans. He is looking directly at the camera with a slight smile. His hands are clasped in front of him, and he is wearing a blue watch on his left wrist.

## Shifting Perspectives, Illuminate Imaginations

I challenge the status quo through the creation of captivating, intricate visuals that mesmerises the observer.

Rather than merely reflecting reality, my creations serve as catalysts for imagination, offering a realm where boundaries blur and perceptions shift.

Employing a blend of fine art digital photography, painting, and design principles, I navigate through a dynamic interplay between reality and illusion. Each artwork or series intricately weaves together elements of complexity and whimsy, utilizing vividly realistic imagery.

My artistic journey liberates me from traditional constraints, enabling me to boldly reimagine alternative realities beyond the confines of the ordinary.
