   1. Hold the MFB for about 3 seconds when charging, till the red and blue lights flashing three times to restore factory Settings.

   Common problems and solutions
   1. Mobile phone can’t search the Bluetooth headphones
   Solutions:
   - Confirm if the Bluetooth head phones are turned on. (Whether the indicator light is on or off and the blue light flash alternatively)
   - If the Bluetooth head phones are turned on but still cannot be searched, please to restart your mobile phone and the Bluetooth head phones.
   Notes:
   - When the Bluetooth head phones is in pairing mode, it will disconnect in 2 minutes, or the head phones will turn off automatically after 2 minutes.
   - Hold the MFB for about 3 seconds when charging, till the red and blue lights flashing three times, it can restore factory Settings.

   2. After connecting the Bluetooth head phones with your mobile phone, there is always disconnection or noise.
   Solutions:
   - The Bluetooth head phones is power low, please to charge the headphone soon.
   - There is black between the Bluetooth head phones and your mobile e phone or not the signal distance. Also, please do not cover the Bluetooth head phones by your hand. To keep signal stable, please keep your phone and the head phones in the same direction.

   3. The Bluetooth has been connected, but you can’t listen to music.
   Solutions:
   - Move the Bluetooth head phones not to use to enjoy music excep you match it with Nokia mobile phone.
   - Check your Bluetooth setting, to adjust the sound path to hands-free mode.
   - Some cell phones also need to set 2 items for the player to start the player Bluetooth and choose the just connected Bluetooth device, then click ok.
   - Some mobile phone are not complete stereo Bluetooth module and Bluetooth function to listen to music. Please connect your Bluetooth head phones with other mobile phones to check whether the Bluetooth head phones is OK or not.

   4. Learn how to use Bluetooth head phones to listen music or chat on computer
   Answer:
   - If your computer is equipped with Bluetooth, just to open the Bluetooth function and search the opening Bluetooth headphones, or else you need a Bluetooth adapter. By a Bluetooth software (K7), the adapter can connect the Bluetooth head phones with computer. Computers with XP system can identity any Bluetooth adapter automatically and it does not need driver, while the adapter software built-in XP can only transfer files, it can not transmit audio, so you must install the K7 software in CD to transfer audio.

   5. When Using, the phone distance between Bluetooth head phones and mobile phone or adapter
   Answer:
   - The available distance between Bluetooth head phones and mobile phone or adapter is 10M. Generally speaking, the result is the best when there is Block between them. When it reaches the distance limit, there is light noise when calling.

   What’s the Bluetooth pairing password?
   Answer:
   - The Bluetooth pairing password is 0000, most phones support enter password automatically, only small part phones need to enter password 0000 manually.

   The red light is not on when charging
   Possible reason:
   - It is long time not to use the head phones.
   Solutions:
   - It needs to charge about 30 minutes, then the red light might be bright.
   - Note: Over charge or keep Bluetooth head phones in a closed case etc. Such similar environments, it will reduce the capacity and life of the battery.
