

Recommended Application

Make certain that your wood surface is free from all dirt, oil, grease, grime, mildew, fungus or loose bark prior to stain application. SuStain™ Wood Finish may be applied by brush, airless sprayer or pump sprayer. Always back brush the product into the pores of the wood. If the surface of your wood is inconsistent then a second coat may be necessary to achieve an even finish. Apply the second coat within 12 hours for best results. Excessive application of this product may result in a glossy appearance, extended drying times or sagging. Please inquire with us for a complete SuStain™ Wood Finish application guide prior to the start of your next job.

Maintenance

Once your existing finish starts to look dull then simply clean the surface and apply another coat of SuStain™ Wood Finish. Expect to re-apply every 2 to 4 years on the southern exposure and every 3 to 5 years on the other sides of your structure. Back brushing your stain into the pores of your wood is a must. Please remember that the overall durability of your stain is dramatically affected by the preparation of your wood prior to staining and how good of a job you do during the stain application process.

Packaging

Sample Jar, 1 Gallon Pail and 5 Gallon Pail

Coverage Rates

150-300 square feet per gallon on the first coat.
300-400 square feet per gallon on subsequent coats.

**The above coverage rates are highly dependent upon the porosity of the wood. Stain not recommended for high density, high oil content or exotic woods. Do not thin or dilute product.

Experience & Reputation

For over 30 years, the Weatherall Company has been making and delivering the best wood stains, chinking and caulking in the industry. ***Some things need to be earned.***

Complete Wood Care System

We are proud to offer wood stains, chinking and caulking designed specifically for logs, wood siding or timbers. SuSTAIN™

WOOD FINISH

Semi-Transparent Oil Based

LOG • TIMBER • SIDING

Restore or Add Beauty to Your Wood

The Perfect Stain Solution

SuSTAIN™

WOOD FINISH

Restore or Add Beauty to Your Wood

SuStain™ Wood Finish is a semi-transparent, oil based stain that is designed to beautify your wood siding, log home or timbers. It can be applied over most oil based stains or as a stand-alone product. There is no better choice to protect the exterior or interior of your wood while providing long lasting results. It is available in 9 standard colors and custom colors can be made upon request.

Why it Works

SuStain™ Wood Finish is a highly advanced oil based product that penetrates into the pores of your wood in order to fend off rain, sleet, snow or harmful UV rays. SuStain™ Wood Finish is loaded with UV absorbers and stabilizers that slow down the adverse effects of Mother Nature while providing for outstanding water resistance and long term color retention. SuStain™ Wood Finish contains a biocide that deters unsightly discoloration caused by mold and mildew.

Warranty

We offer a 3 and 5 year warranty for SuStain™ Wood Finish when it is applied according to the label directions to bare wood on vertical wood surfaces such as walls or posts. Inquire with a Weatherall Company representative for complete details.
