

Calmer®

A small device worn in the ear to reduce stress. Calmer features a unique technology that reduces distortion in our ears and calms your environment in a subtle, but potentially life-changing way.

"I have audio sensory issues and these are great for loud, echoing places and restaurants. It's amazing the relief they bring!"

Calmer®

HOW CALMER WORKS

As humans we hear sound in a range of frequencies from low to high.

Sound can be overwhelming at times and make you feel **stressed and anxious**. Calmer reduces the most annoying sounds and **helps you focus** on the important ones.

Four Variants

Calmer, Calmer Mini,
Calmer Secure,
Calmer Secure Mini

Five Colours

Purple, Mint, Grey, Black,
Translucent

Material

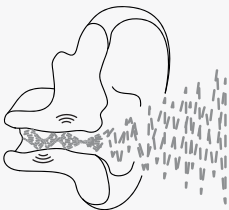

Soft silicone

What's included

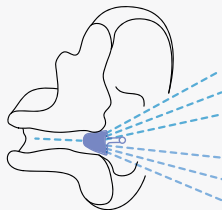

- 1x pair of Calmer
- 1x mesh pouch
- Calmer user guide

OUR HEARING

As sound enters our ears without Calmer, it bounces around our ear canal.

This makes the mid to high frequencies seem louder and **can trigger** our stress levels.

With Calmer, sound is **accurately directed into our ears**. This reduces these noises and **helps you focus** on sounds you want to hear.

Calmer

Length: 20mm
Width: 12.6mm
Weight: 0.5g

Calmer Mini

Length: 20mm
Width: 10.8mm
Weight: 0.2g

Calmer Secure (as above)

Length of attached lanyard
approx: 480mm
