

Sleeps®

Flexible silicone stem with an ultra comfortable memory foam ball

FLATE®

Sleeps®

DATA SHEET

Our most lightweight, mini and user-friendly earplug yet.

A flexible silicone stem and super soft memory foam ball have been combined to form a single piece earplug that moulds neatly to the shape of your ear canal.

Designed to fit all ear shapes and sizes, the ball has an extra-long rebound time to make sure users get the best seal and most effective noise reduction.

Sleeps come in two variants, Sleeps Grey and Sleeps Glow.

Two Variants:

- Sleeps Grey:** Made from a super soft memory foam ball and silicone
- Sleeps Glow:** Made from a super soft memory foam ball and luminous silicone
