

This **Lotus Column Table Lamp** has a faceted central stem. The tiered crystal base is designed to add height and the detail on the acanthus leaf capital is striking. A sunburst pattern underneath the base is a traditional feature that refracts delicate light.

The glass column and base is moulded in solid glass. The capital is cast from solid brass which is then nickel plated and the sunburst pattern underneath the base is skilfully hand-cut. The acanthus leaf detailing on the capital is an intricate feature.

Designed and made in England.
