

The **Stirling Swing Arm Wall Light** is fabricated with a solid cast brass backplate and the arms are produced from extruded brass tubing. The available finishes of brass and bronze give the light a distinguished depth.

It has two adjustable arms to give maximum reach. The brass backplate has a distinctive stepped design and the adjustable arm has a clean, architectural line, complementing the rounded candle cup.

The cast brass rectangular stepped backplate integrates with the attached swivel joints.

Designed and made in England.
