

BOOST

Boost is an easy-to-use, multi-use, silica-based spray. It can be applied as a standalone hydrophobic sealant, a seasonal coating maintenance topper, or as a drying aid during routine washes. Boost enhances shine and slickness and helps to repel water, dust, and dirt while adding a thin sacrificial layer to help with paint protection.

GLASSPARENCY™

PRODUCTS MADE TO PERFORM

FEATURES AND BENEFITS

- Creates an ultra-hydrophobic layer of protection for your car's exterior surfaces
- Helps protect paint from environmental contaminants and road debris
- Aids in maintaining the performance and appearance of graphene or ceramic coatings
- Works as a drying agent after a car wash
- Extreme glossy, slick appearance
- Coconut scent
- Available in 8oz, 16oz, 1 gallon, 2.5 gallon

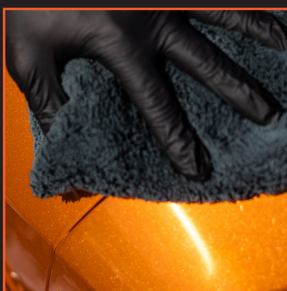

DIRECTIONS:

1. Spray evenly onto vehicle surface.

2. Using a clean microfiber cloth, wipe the surface in a cross-hatch (side-to-side, top-to-bottom) pattern to evenly distribute the product.

3. Gently level, wipe away any excess product with a clean, dry microfiber, leaving behind a clean, streak-free, hydrophobic shine.
