

Jordco® e-Foam® Inserts

EndoFoam Inserts

Jordco's e-Foam insert is the standard for all clinicians who perform endodontic procedures. Our patented foam inserts are designed to be used with all Jordco EndoRings® and they provide optimum performance for superior cleaning, storing and organizing of endodontic files.

TECHNICAL SUMMARY

e-Foam: Single use patented open cell yellow and blue foam. Can be steam autoclave processed prior to use. During steam autoclave processing, endodontic instruments can be inserted into the foam. Jordco's e-Foam is available in 2 colors to allow the option of color coding instrument setups.

Discover our complete line of quality Jordco® products at www.jordco.com or contact your dental supply dealer.

EndoRing II Endodontic Instrument Family of Products

The EndoRing II organizer enables the clinician to directly place, store, measure and clean endodontic hand and rotary instruments within the operating field. It reduces the risk of cross-contamination and minimizes the passing of sharps between dentists and staff. Using the EndoRing II organizer helps make endodontic procedures safer and faster.

The EndoRing FileCaddy® organizer provides a unique bulk storage solution for all endodontic files. The clinician places multiple files securely into the special foam insert, closes the lid and steam autoclaves the entire EndoRing FileCaddy organizer.

PRODUCT SPECS

Name: EndoRing e-Foam
REF: ERF-s: Combo Pack (24 Blue/24 Yellow)
ERFB-s: All Blue Pack (48 Blue)
ERFY-s: All Yellow Pack (48 Yellow)
Weight: 2.5 oz

PACKAGE CONTENTS

- 48 Single Use e-Foam Inserts

FEATURES AND BENEFITS

Superior Design and Cleaning

The e-Foam inserts cell structure has a much higher and desirable firmness than most all of the imported imitators. Jordco patented e-Foam efficiently stores and cleans debris from endodontic files. Our foam is made in the USA.

Two Color e-Foam

Jordco blue and yellow e-Foam inserts provide an additional option for color coding instrument set-ups.

Locking Tail Feature

The shape of tail portion of the insert has a positive locking feature to engage the EndoRing cup and prevent dislodgement while in use. The unique shape of the tail also helps to identify the Jordco brand e-Foam insert.

Foam Can be Autoclaved Processed

Jordco's e-Foam, can be loaded with new or clean files and steam autoclaved processed before a procedure. The open cells structure allows for easy penetration of steam.

Fits All Jordco EndoRings

Jordco e-Foam is designed to fit both the Original EndoRing® and the EndoRing® II products.

Single Use

Single use e-Foam helps prevent cross contamination and prevent accidental sticks. Used files can be placed into the foam insert for disposal in a sharps disposal container.

Faceted Working Surface

The top of the foam insert has three distinct facets that help organize files for ease of use during a procedure. Different tapers or diameter of files can be easily identified and located during a procedure.
