

# Pure Bond Dispenser<sup>®</sup>

## Light Protected Storage Wells

Single use, multi-purpose, light protected storage wells for bonding agents and composites. This efficient device can store light sensitive bonding agents, sealants and composites in four wells protected by a light locking lid. Bonding materials can be pre-loaded prior to a procedure and be easily delivered at chair side.

### TECHNICAL SUMMARY

**Pure Bond Dispenser:** Thermoformed black plastic. Approximately 2-1/4" by 2" with lid closed. 4 agent wells, 1 large utility well and 2 brush storage channels per unit. Single-use.

### EndoRing II Endodontic Instrument Family of Products

The EndoRing II organizer enables the clinician to directly place, store, measure and clean endodontic hand and rotary instruments within the operating field. It reduces the risk of cross-contamination and minimizes the passing of sharps between dentists and staff. Using the EndoRing II organizer helps make endodontic procedures safer and faster.

The EndoRing FileCaddy<sup>®</sup> organizer provides a unique bulk storage solution for all endodontic files. The clinician places multiple files securely into the special foam insert, closes the lid and steam autoclave processes the entire EndoRing FileCaddy organizer.

### PRODUCT SPECS

**Name:** Pure Bond Dispenser  
**REF:** PBD-s  
**Weight:** 5.9 oz

### PACKAGE CONTENTS

- 50 single use dispensers

### FEATURES AND BENEFITS

#### Four Agent Wells

Deep wells accommodate all agents needed for bonding procedures. Great for etchants, bonding agents, sealants and composites.

#### Light Protecting Lid

Unique, one piece hinged design prevents any light contamination of bonding agents or composites. Light sensitive materials can be stored for several hours without activation.

#### Leak Proof Lid

Manufactured of black thermoformed plastic. The locking lid prevents accidental spillage of bonding agents.

#### Brush Storage Channels

Dispenser channels store small applicator brushes prior to a bonding procedure.

#### Disposable, Single Use

Hygienic single use tray is disposable after each use. Reduces cross contamination and saves valuable chair and set-up time.

#### Increased Efficiency

Assistants can pre-load required dispensers for the day. The light protecting lid will keep the sensitive bonding materials fresh. The original containers for the bonding agents do not have to be disinfected after each procedure.

#### Compact and Easy Handling

Convenient size can be easily held by an assistant or placed on any surface. Easy open and close lid simplifies the procedure.

#### Durable Resin Construction

Compatible with most resins, primers, solvents and etchants. Prevents contamination of agents by dissolved resin precipitates.
