

## How to trim the Plugs for the 2023 Tesla Model 3 Tail lights (FOR THE INNER TRUNK LID TAIL LIGHT - Pre-Installation)

ALPHAREX PRODUCTS SKU: 601030 and 601040

ALPHAREX specializes in designing and producing superior and uniquely stylish aftermarket automotive performance lighting with unrival innovative technology. The following instruction guide we take you through on the topic: **How to trim the Plugs for the 2023 Tesla Model 3 INNER TRUNK LID Tail lights.**

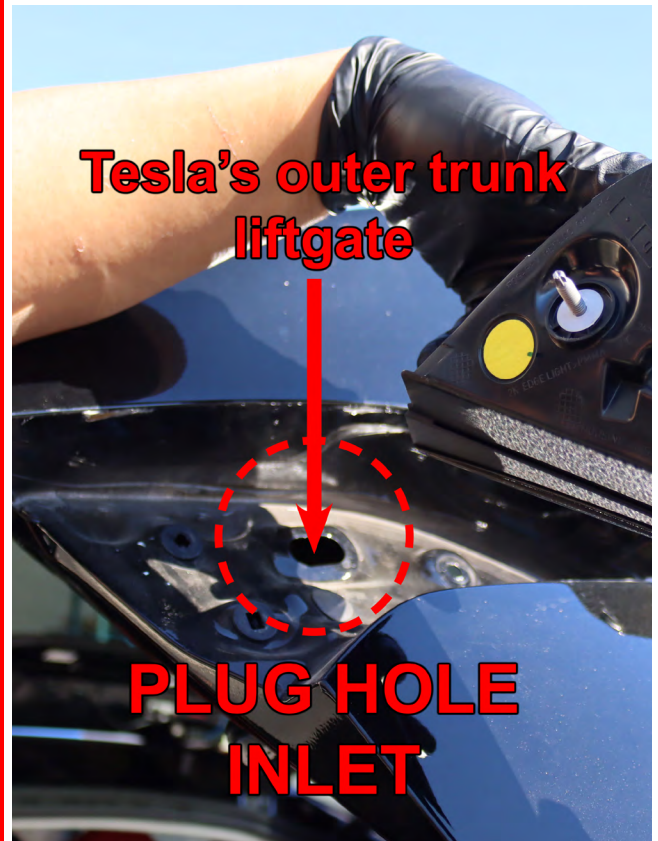

*Disclaimer: This article is a tutorial guide. By reading this article, you agree it is for reference only and AlphaRex USA and its distributors make no guarantee on the finished results. Under no circumstances whatsoever shall AlphaRex USA nor its distributors be liable for any damage, misuse or personal injuries. If you do not fully understand the instruction procedure, it is highly recommended that you seek help from professional mechanics to do the instruction.*

Due to some internal changes in newer Tesla models, it is necessary to trim the plugs of ALPHAREX's 2023 Tesla Model 3 Trunk lid liftgate Tail lights to ensure that they fit properly into the vehicle. **Please follow the instructions below for a smooth Pre-installation.**

Please make sure to trim the plug as shown from the picture.

Now that you have trimmed the plug, it can be inserted easily into the outer trunk liftgate's plug hole inlet. *Please follow the same steps for the other side of the tail light's plug. Thank you!*
