

## ACOPLAMIENTO STRAUB-GRIP-L

### Especificaciones 26.9 - 219.1 mm

| Componentes / Materiales                    | W1  | W2 | W4 | W5                    |
|---|---|----|----|-----------------------|
| Carcasa                                     |   |    |    | AISI 316 Ti           |
| Tornillos                                   |   |    |    | AISI 316 L            |
| Pernos-U                                    |   |    |    | AISI 316 Ti           |
| Anillo de anclaje                           |   |    |    | AISI 301              |
| Banda refuerzo (opcional)                   |   |    |    | AISI 316 L/PVDF/ HDPE |
| Manga de sellado <b>EPDM</b>                | Temperatura: -20°C hasta +80°C<br>Aplicaciones: todas las calidades de agua, aguas residuales, aire, sólidos y productos químicos |    |    |                       |
| Manga de sellado <b>NBR</b>                 | Temperatura: -20°C hasta +80°C<br>Aplicaciones: agua, gas, aceites, combustibles y otros hidrocarburos                            |    |    |                       |
| Manga de sellado <b>VITON A<sup>1</sup></b> | Temperatura: -20°C hasta +180°C<br>Aplicaciones: ozono, oxígeno, ácidos, gas, aceite y combustibles (solo con banda de refuerzo)  |    |    |                       |
