

Peanut Ball Jr.

Setup, Usage Tips, and Care & Safety Guide

Please read before setting up or using your Penut Ball Jr.

TOOLS NEEDED

1. Peanut Ball Jr. pump (you may want to use a bicycle pump or compressor for initial inflation).

SETUP

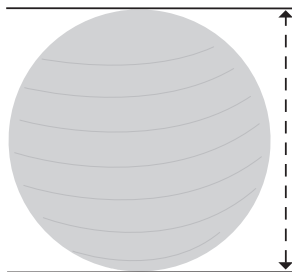

1. Remove Peanut Ball Jr. from box and check for shipping damage. (Note: it is normal for balls to have slight creases or fold marks when first inflated.)
2. Allow ball to reach room temperature before inflating.
3. Insert tip of pump into hole in Peanut Ball Jr. Inflate ball to the desired height and firmness. DO NOT overinflate.
4. Remove pump from ball and immediately insert plug into hole (so head is flush with surface of ball). DO NOT overinflate.
5. To measure the correct inflation of your ball. Please measure the diameter of the ball to 17.71 inches as shown below.
6. Your Peanut Ball Jr. is now ready for use.

INFLATION NOTICE

- Inflate ball and plug.
- Ball may not inflate to 100% of size on initial inflation.
- Wait 24 hrs.
- Deflate 50% and inflate again.
- Due to the ball's material, the ball will increase to proper size with second inflation.
