

DIFFUSER

SETUP, CARE & SAFETY GUIDE

Please read before setting up or using your Diffuser.

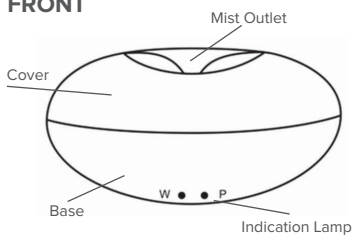

SETUP

1. Remove the Diffuser from the packaging and check for possible shipping damage.
2. Your Diffuser is ready to use.
3. The Diffuser should be placed on a flat surface at all times.
4. Twist the cover to open the Diffuser.
5. Open water tank cap.
6. Add a maximum of 100ml of water.
7. Add 3 - 5 drops of essential oil.
8. Connect DC power.
9. Replace the lid on the water tank cap and close the cover.
10. Connect the power supply. (100 - 240V/50 - 60hz)

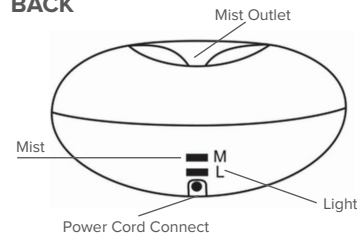

PROFILE

POWER	VOLTAGE	FREQUENCY

FEATURES

- Night light/background light comes in a choice of 7 different colors.
- Add 3-5 drops of essential oil. Pairs best with Gaiam Relax Essential Oils.
- An ultrasonic humidifier emits cool mist.
- Low power consumption.
- Auto cut off function when water level runs low.
- Interval mode for operation up to 6 hours.

CLEANING & MAINTENANCE

1. Disconnect from the power supply when not in use.
2. Use a clean wet cloth and a small amount of dish cleanser into the tank and gently wipe clean. Repeat as necessary. Avoid getting water into the air outlet.
3. Use a dry soft cloth to wipe the tank and lip dry.
4. Empty tank completely when not in use.
5. Clean with water once a week.
6. Store in a safe place to prevent damage.

DIFFUSER

SETUP, CARE & SAFETY GUIDE

Please read before setting up or using your Diffuser.

"W"

When connected with the power "W" is on.

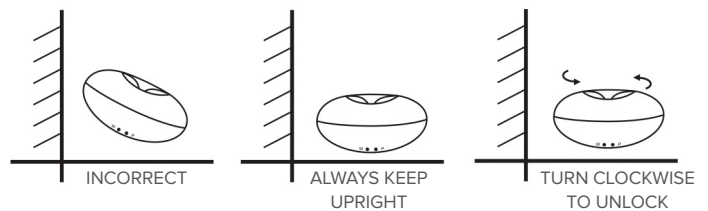

"P"

"P" is on when working normally, and flashing when paused.

"P" flashes once then turns off when the water level is too low.

CAUTIONS

1. Use a cleaning cloth when cleaning your Diffuser.
2. Be careful not to allow water into the air outlet.
3. Always keep your Diffuser in an upright position.
4. Always make sure power cord is dry before connecting.
5. Do not wash tank directly under running water.
6. Always keep the lip between the tank and the base dry.
7. Keep out of reach of children when in operation.
8. Keep away from heat-emitting devices such as a stove or heater.
9. Always operate in a well ventilated area.

Cover the air outlet using your thumb when pouring water out of the device.

Do not allow water to get into the air outlet while pouring.
