

KERRIGAN + BERRY

KERRIGAN + BERRY CABERNET SAUVIGNON 2018

Mighty An oak driven style of cabernet - there is lots of oak, but it is lovely classy oak with the intense ripe blackberry jam-like varietal fruit pushing its way through.

Winestate Magazine | July August 2021

Mighty good year to be bringing fruit from Margaret River and Mount Baker together. It is a marriage made in heaven. The power and structure of that dark Margaret River cabernet, with its minerally leafy blackcurrant, sits happily with the soft warming flesh of the Mt Barker contribution. Spremely blanaced and perfectly integrated. At is has almont luminescent brilliance and brightness. (Drink now to 2041)

Ray Jordan | September 2021

Sourced from both the Langton vineyard in Mt Barker and the Red Tail Creek vineyard in southern Margaret River. 18 months in 40% new oak. Langton brings the structure and the density, Red Tail Creek the red-fruit succulence and latent power. All things as one here, the perfect example of greatness exceeding the sum of its parts. Muscular in its own way and built for long-term gratification.

Erin Larkin | Halliday Wine Companion 2022
