

## Lab-Tips® - LT170183

### Small Nonwoven Polyester Swab with Rigid Tip

#### 100% hydroentangled polyester swab

The LT170183 nonwoven polyester swab combines compact size with a critically clean hydroentangled 100% polyester nonwoven head. The flexible internal head paddle provides added dexterity and makes LT170183 an excellent swab for cleaning small

recessed areas. Non-abrasive, the LT170183 is gentle on sensitive surfaces. Wrap tips combine absorptive capacity and precision cleaning for the most demanding process specific applications.

#### Features

- Double layer, hydroentangled polyester over flexible paddle
- Soft and non abrasive
- Thermally bonded head

#### Benefits

- Low particle and fibre generation
- Excellent chemical resistance
- No contaminating adhesives
- Good absorbency

#### Physical Characteristics
