Easily Maneuver Indoors and Out

Perfect for navigating in your home, at the market, and outdoors. Smoothly rolls over the flooring with four 8" flat-free tires and a ground clearance of 3.5", allowing easy movement over most door jambs.

Go Farther on A Single Charge

Powered by a long-lasting, rechargeable battery that lasts up to 15.5 miles per charge with a top speed of 5 mph. Your mobility scooter includes a quick connect battery and charging cable.

Ride in Comfort and Style

Safely supports up to 298 lbs with a large platform and height-adjustable 16.54" captain-seat padded for gentle cushioning and support.

Wraparound Delta Tiller

Features an intuitive control panel to set speed and control LED brights as needed. The tiller display has a color-coded battery life indicator for checking the status of the battery at a glance.
