**EXERCISE INSTRUCTION**

- Warm up for 3-5 minutes before each session.
- Complete 1–3 sets of 8–12 repetitions of each exercise selected.
- Rest approximately 30–60 seconds between each exercise set.
- Perform each exercise in a controlled manner, through a full range of motion.
- When applicable, perform an equal number of exercise repetitions with each leg to avoid the development of muscle imbalances.
- If unable to complete 8 exercise repetitions through a full range of motion, increase rest time between exercise sets or select a Hip Band that provides a lesser amount of resistance. Or if unable to achieve moderate to maximal muscular fatigue following the completion of 12 exercise repetitions through a full range of motion, decrease rest time between exercise sets or select the Resistance Tubes that will provide a greater amount of resistance.
- Perform each exercise a minimum of 3 times per week for maximum results.
- Allow 24–48 hours of complete rest between each exercise session.

### BRIDGE

**START**

Secure band around both legs just above knees and bend knees. Lie on back. Secure band around both legs just above knees and bend knees. Extend arms along sides of body and keep feet, hips, trunk and shoulders flat on the floor.

**FINISH**

Slowly lift hips and buttocks upward until knees, hips and shoulders are aligned. Keep back straight, feet flat on floor, and head and shoulders stationary on the floor. Hold 1-2 seconds and return to start position.

### OUTER LEG LIFT

**START**

Secure band around both legs just above knees and straighten knees. Lie on side and roll onto hip of non-exercise leg. Bend arms and position elbow of bottom arm directly below shoulder and hand of top arm on floor in front of hip.

**FINISH**

Lift top leg straight up and away from bottom leg while keeping bottom leg stationary on floor. Hold 1-2 seconds and return to start position.

### UPWARD LEG RAISE

**START**

Secure band around both legs just above knees. Kneel on floor with palms flat, back parallel to floor and head up.

**FINISH**

Keeping knee bent, slowly lift exercising leg up and back above hip. Keep head up and palms flat on floor. Hold 1-2 seconds and return to start position.
