ROUND BOARD EXERCISES

EXERCISE INSTRUCTIONS

Mimic all exercises on the floor without the balance board until proficiency is exhibited with each activity.

Perform 1-3 sets of each selected exercise for 30-60 continuous seconds. Rest approximately one minute between each set of exercise.

To avoid developing muscle imbalances, perform an equal number of exercise sets with each side of the body (applies only to one leg exercises).

Attempt to demonstrate perfect form while performing each exercise. If you are over-challenged and unable to demonstrate proper posture, alignment and stability for 30 continuous seconds, select a board providing greater stability or perform the exercise with two feet (recommendation applies only if option is shown in this chart!).

If you are under-challenged and are able to easily perform an exercise for more than 60 continuous seconds, select a board providing less stability or perform the exercise with one foot (recommendation applies only if option is shown in this chart!).

*Once able to perform both bent and straight leg exercise for a minimum of 30 continuous seconds, attempt to balance while slowly bending and straightening the legs. Keep toes pointing straight ahead and repeat this squatting exercise for 30-60 continuous seconds.
