WHAT IS **SALOMON FORCES?**

A person wearing camouflage pants and Salomon Forces snow boots is standing on a snowy mountain slope. The boots are dark with silver accents and are covered in snow. The background shows a snowy mountain range under a blue sky with some clouds.

Originally developed in the French Alps, Salomon created boot technology which was later adopted by the Olympics. Since then, they have made many amazing boots, which include a line that focuses

specifically on Law Enforcement and Military. This line upholds the same standards as those appreciated by high-performing athletes.
