

Sequence

Heights available

320mm / 360mm / 400mm / 420mm

Care, maintenance and suitable use

- Sequence tables are produced from mild steel with two layers of powder coat protection
- Sequence tables are suitable for regular use in non-corrosive environments
- Sequence tables are not suitable for use in highly corrosive environments such as seafront locations or in confined, chlorinated spaces
- While suitable for outdoor use, we recommend avoiding prolonged exposure to salt air or moisture to preserve the surface finish and avoid corrosion
- Care is required to avoid compromising the protective surface finish and exposing the steel to air or moisture
- Remove any spills and clean up marks with a soft cloth dampened in lukewarm water with a mild detergent
- Never use abrasive cloths or detergents containing abrasives or solvents

Materials

Mild steel, powder-coated with zinc undercoat

Lead time

10–12 weeks

Customisation
