

CAVALIER

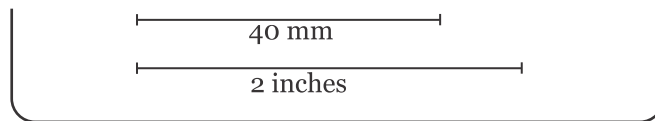

Printable Ring Sizer and Guide

STEP 1:

Print on Letter Size Paper at 100% Size

STEP 2:

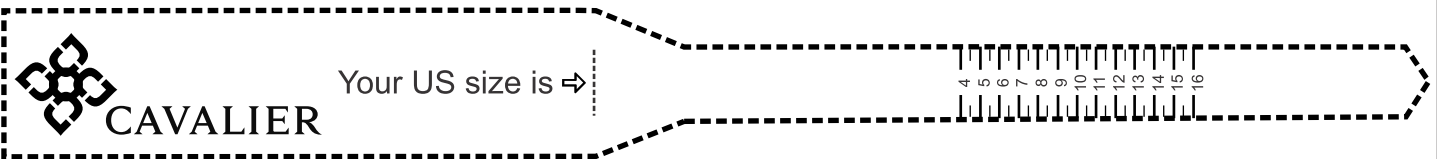

Once printed, confirm the printing scale is correct by matching the long side of a credit card with this guide, or measuring 2 inches, or 40mm:

Bottom edge of credit card should match

STEP 3:

Cut the ring sizer along the dashed line. Fold the left, wider side of the ring sizer along the center and cut the slit. Insert the measuring band (right side of sizer) through the slit.

STEP 4:

Slide the sizer onto your finger all the way to the base and tighten until it fits comfortably without overtightening. Read the size on the scale that matches with the slit.

The smaller markings on the scale represent the 1/2 sizes.
