collaborative lounge collection

ziva

JSI

Ziva addresses the multifaceted requirements of the modern work environment with open plan and collaborative solutions, modular design, and architectural presence. Upholstered surrounds provide visual and acoustic privacy, while power units and swivel tablets tend to the needs of electronic devices.

ziva

JSI

Ziva modular lounge is beautifully counterbalanced by a series of lightly scaled tables. Tables are offered in occasional or work heights, with either a white solid surface or wood top.

ziva

Ziva's practical elements and precise detail intertwine, forming a perfect blend of function and aesthetics. Adjustable feet allow for leveling throughout modular configurations while casters provide mobility.
