

EtherCON™ Compatible Cables

Cool Cable™ ETHERCON™ compatible cables are quality constructed, shielded network signal cables designed for pro AV applications.

They feature durable, lockable male RJ45 style connectors and shielded Cat5e wire. Cat5e supports speeds of up to 1000Mbps, with less interference at higher speeds than Cat5.

In addition, these cables feature an extra-flexible jacket material that is tough, abrasion-resistant, and remains flexible in hot or cold temperature environments.

Velcro straps are included with each cable to keep them rolled up tight when not in use, and they come with a limited lifetime warranty.

Available Models:

Item	Description
ETHERCON-3	3-foot etherCON® compatible CAT5E signal cable
ETHERCON-5	5-foot etherCON® compatible CAT5E signal cable
ETHERCON-10	10-foot etherCON® compatible CAT5E signal cable
