

## Fat Beam Green Laser, Moving Head

### Powerful & Compact

Laser Blade™ G is a powerful and compact moving head with lightning fast 540° pan and 270° tilt. This beauty is equipped with a 50mW, class 3R fat beam green laser with 15KPPS galvo scanners for smooth shapes, animations, and other jaw dropping effects. It is equipped with a ton of goodies like 133 geometric figures, 14 animations, and 76 types of beam patterns.

### Endless Capabilities

It can be easily operated in standalone, auto-beam, auto-animation, sound active mode, or controlled via DMX where you can take full control of pan and tilt, zoom in/out, rotation, drawing, billowing, speed, and a slew of spectacular animations. Set up two or more with mirrored pan and tilt, add some fog, then get ready to witness some seriously cool “Liquid Sky” effects.
