

## SnowBank™

SnowBank™: RGB Blender / LED Pixel Effect

Meet the SnowBank™, a super-bright LED blinder effect with 8 pixels (4 LED's per pixel), and fitted with a massive 32x 3-watt Tri-Color, all-in-one RGB LEDs. User selectable 7/26 channel DMX modes offer vibrant color switching, fading, pattern sequencing, variable strobe, and sound active effects. The amazingly cool pixel effects built into the SnowBank™ are sure to make a great impression and give your lighting setup that "wow" effect!

In 7-channel mode, the SnowBank™ gives you total control of global R/G/B intensity, 7 built-in static colors, 21 built in programs + sound active, speed control, and strobe. While in 26-channel mode, you can mix the colors of each individual pixel separately, and also adjust the global intensity & strobe.

Setup is a breeze with its dual mounting brackets and locking knobs. Or, set the SnowBank™ up free standing with your favorite stand via its underside pole mounting slot.

The 4-button control panel with LED display makes programming a breeze. And of course, the SnowBank™ is also backed by Blizzard's 2-year warranty.

### Control Features

- RGB color mixing via 32\* 3-watt Tri-Color (3-in-1) LEDs
- User selectable 7 or 26 DMX channels
- Standalone, master/slave, and DMX modes
- Built-in automated and sound activated programs via master/slave
- Easy to use LED digital control panel
- Dual mounting yoke allows flexibility in positioning

# SNOWBANK™
