SLIDING MOUNT FOR THE SHORT MALCOLM SCOPE INSTRUCTION

If you shoot high recoil gun 45-70 or larger with the short scope, You can install the sliding ring 17SLR to reduce the recoil impact on the scope mount. You can use the sliding ring 17SLR (2) to replace the existing lock ring attached to the front ring (1) as the picture above indicates. Every time you shoot the rifle, you need to pull back the scope to above picture position to reduce the recoil impact. If you have any questions about this product, please feel free to contact us at the toll free no. 1-888-HI-LUX-12 (445-8912) or send us an e-mail to techsupport@hi-luxoptics.com.

WARNING:

You must install the mount securely before you shoot the rifle. This should be done by a competent gunsmith.
