

# Juren Beauty's - Eye Lash Lift After Care

We hope you are enjoying your Eye Lash Lift! Please follow the following aftercare tips, so to gain the best wow factor and longevity out of your Lift.

## DO's

Use your lash wand provided to brush your lashes regularly. Brush your lashes down on top first, then brush your lashes up from the root line to the tip.

We highly recommend using Elleplex Clear Mascara, which is a lash conditioner. This amazing product helps to nourishing and condition your lashes and gain extra longevity from your lash lift and tint. It is applied on top and underneath your lashes and can be used just on its own or under regular black mascara.

After 4 weeks you can revive the wow factor of your lift with an Eye Lash Tint. This will make the tips of your lashes look nice and dark again.

Expect results to last 8-12 weeks, after which your lashes will gently relax back to their natural state, and new lashes would have grown & ready to be lifted again. Please note: At Juren we will not lift again in less than 8 weeks.

Elleebana Elleplex Clear Mascara - \$35  
Eyenvy Lash Growth Serum - \$120

## DONT'S

Refrain from getting your eyelashes wet for at least 12 hours after your lift. This includes washing your face, swimming and using steam rooms.

Avoid wearing regular black mascara for the next 24 hrs, and avoid wearing waterproof mascaras all together as they can dehydrating your lashes.

Avoid rubbing or touching the eye area for the next 12hr as you could irritate the eyes.

Don't spend too long in direct sunlight straight after your treatment, as this could weaken the lift.

If you have your treatment in the evening, be aware of how you sleep, trying not to sleep on your side or tummy, as your lift may still be setting, and you don't want to kink your lashes.

If flying avoiding wearing regular black mascara, as you may find your curl will tighten. This is due to dehydration in the plane, make sure to rehydrate your lashes after flying, Elleplex Clear Mascara is great to you use before, during and after.
