

Report No.: ESUN2018022601-7E Date: Sep.26, 2019

## Section 1. Product and Company Identification

Product Identification: Water Wahsbale Resin LC1000
Chemical name : Water Washable Resin

Product type : liquid

Recommended use : For use with LCD 3D printer

Company: Shenzhen Esun Industrial Co.,Ltd.

Website: www.esun3d.net

ADD: Wuhan University Building A403-I, No. 6 Yuexing 2 Road, Nanshan District, Shenzhen, China

Tel: (086)-0755-26031975;(086)-0755-26031982 E-mail : lj@brighten.net

### Section 2. Hazard(s) Identification

#### GHS Hazard Classification of the Substance or Mixture:

Signal Word: Warning Signal Word: Danger Hazard Statement(s):

H317 May cause an allergic skin reaction

H320 Causes eye irritation

H303 May be harmful if swallowed (uncured material only)
H335 May cause respiratory irritation (uncured material only)

#### Precautionary Statement(s):

P201 Obtain special instructions before use.

P202 Do not handle until all safety precautions have been read and understood.

P261 Avoid breathing dust or fume. (uncured material only)

P264 Wash thoroughly after handling.

P272Contaminated work clothing should not be allowed out of the

workplace. P273 Avoid release to the environment.

P280 Wear protective gloves, protective clothing, eye protection and face protection.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical attention.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P333+P313 If skin irritation or rash occurs:Get medical

attention.

P362Take off contaminated clothing and wash before reuse.

P363 Wash contaminated clothing before reuse.

P308+P313 IF exposed or concerned: Get medical attention.

P405 Store locked up.

P501 Dispose of contents and container in accordance with local and national regulations.

Description of any hazards not otherwise classified: N/A

Report No.: ESUN2018022601-7E Date: Sep.26, 2019

Section 3. Composition/Information on Ingredients								
Chemical Name, Common Name and Synonyms:	CAS#andotherunique identifiers	% by Weight						
Acrylic Oligomers*	55818-57-0	40-50%						
Monomer	13048-33-4	20-40%						
Color pigment		2-5%						
Photoinitiators*	947-19-3	3-5%						

<sup>\*</sup>Denotes that the specific chemical identity and/or exact percentage(concentration) of composition has been with held asatrad esecret.

#### Section 4. First-Aid Measures

**After in halation:**Remove from source of exposure into fresh air.Seek medical attention ifany irritation develops.

**After skin contact:** Wash skin with soap and water.Remov eany contam inated clothing and shoes and clean before reuse.Seek medical attention if irritation develops.

**After eye contact:** Hold eye open and rise continuously with agentle stream of clean running water for atleast15minutes. Seek medical attention if any irritation develops.

**After swallowing:** First aid is un likely to be required but if necessary, rinse mouth repeatedly with water, ensuring that the water is not swallowed. Seek medical attention.

Information for Doctors: Treat symptoms conventionally after thorough decontamination.

### Section 5. Fire-Fighting Measures

**Suitable extinguishing agents:** Chemical foam, carbon dioxide or dry chemical extinguishers. **Special hazard sarising from the substance or mixture:** Form ationoftoxic, irritating gase sispossible from the decomposition of the methacrylate resins. Heat can cause polymerization with rapid release of energy.

Advice for fire fighters: Wear full protective equipment(bunkergear) and aself-contained breathing apparatus. (SCBA). Wate rmay not be effective in extinguishing afire involvingth is product. Protective equipment: Wear full protective equipment(bunkergear) and aself-contained breathing apparatus. SCBA). Water may not be effective in extinguishing afire involvingth is product.

### Section 6. Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures:** Safety glasses withside shields, gloves and laboratory coatrecommended.

**Environmental precautions:** Avoid releases to the environment. Report releases as required bylocal and national authorities.

**Methods and material for containment and cleaning up:** Exposure to sunligh to rartificial light will cause the resintopolymerize. Spread the paste to maximize the surface area. Once the materialis hard, pick up and place into a container for disposal.

**Reference to other sections:** Refer to Section 8 for Personal Protective Equipment and Section 13 for Disposal information.

Report No.: ESUN2018022601-7E Date: Sep.26, 2019

## Section 7. Handling and Storage

**Precautions for safe handling:** Avoid contact with the eyes, skin and clothing. Avoid breathing dustor fumes. Wear protective clothing and equipment as described in Section 8. Use with adequate ventilation. Wash thoroughly with soap and water after handling. Keep containers closed when not in use. Donotreus econtainers. Emptycontainers retain product residues and can be hazardous. Follow all SDS precautions when handling emptycontainers.

Conditions for safe storage, including and incompatibilities: Store inatightly closed contain erinacool (29-90°F/-1.7-32.2°C), well-ventilated location away from incompatible materials. Do not store near high temperatures, light or ignition sources. Do not store in an oxygen-free environment. Avoid freezing the material.

**Specific end use(s).** For professional use only.

# Section 8. Exposure Controls / Personal Protection

Control parameters: Use in an enclosed process area is recommended.

**Personal protective equipment:** Depending on the conditions of use, protective gloves, apron, boots, head and face protection should be worn. Eye protection such as chemical splash goggles and/or face shield must be worn when the possibility exists for eye contact due to splashing or spraying liquid, airborne particles, or vapor.

**General protective and hygienic measure:** Wash hands after handling material and before eating. See section 7 for full protectivemeasures.

**BreathingEquipment:** None should be needed from normaluse. If this material is handled atelevated temperature or under mist forming conditions, approved respiratory protection equipment should be used. Selection and use of respiratory equipment must be in accordance with applicable regulations and good industrial hygienepractice.

**Protection of hands:**Gloves are recommended.Depending on the condition sofuse,labcoatand/or arm shields may be used.

Material of gloves, Penetration time of glove material: N/D

Eye protection: Use of safety goggles with side shields is recommended.

# Section 9. Physical and Chemical Properties

Information on basic physical and chemical properties.

General Information.

**Appearance** 

Form: Colored Liquid

Color: Colored, or having an intentionally added

pigmented color. **Odor:** Ester-like odor. **Odor Threshold:** N/D

## Section 10. Stability and Reactivity

Reactivity: None known.

Chemical Stability: Stable if handled and stored as directed.

Thermal decomposition/Conditions to avoid: Avoid heat, light and sources of contamination. Possibility of hazardous reactions/Condition stoavoid: Heat, light, sources of contamination or inhibitor depletion may cause spontaneous polymerization generating heat and pressure. Closed containers may rupture or explode during runawaypolymerization.

**Incompatible materials:** Reducing and oxidizing agents, peroxides and amines.

Hazardous decomposition products: Thermal decomposition may release acrid smoke or fumes,

carbon and nitrogen oxides.

### Section 11. Toxicological Information

Acute toxicity: Possible irritant. See section 2.

Primary irritant effect:See Section 2 for possible skin and eye irritation and

sensitization. LD/LC50 values that are relevant for classification: N/D

Additional toxicological information: N/D

IARC (International Agency for Research on Cancer) None of the components are listed.

NTP (National Toxicology Program) None of the components are listed.

### Section 12: Ecological Information

Aquatic Toxicity: None of the components are listed.

Persistence and degradability: No data is currently available. Behaviorin environment alsystems: No data is currently available. Bioaccumulative potential: No data is currently

available.

Mobility in Soil: No data is currently available.

Additional ecological information: No additional data is available.

General Notes: Release into the environment should be avoided. Refer to section 13 for disposal

information.

Results of PBT and vPvB assessment: N/D

Other adverse effects: None known.

## Section 13. Disposal Considerations

Waste Treatment Methods

Recommendation: Cure material before disposal. Dispose in accordance with all federal, state and local regulations. Consult state and local hazardous waste regulations to ensure complete and accurate classification of waste. US EPA guidelines for the classification of hazardous waste are found in 40 CFR part 261.3.

Uncleaned packaging:

Recommendation: Rinsewithalcohol. Contain and dispose of rinse material according to all federal,

stateand local regulations.

Recommended cleansing agent: alcohol

# Section 14. Transport Information

Department of transportation classification: Not hazardous by D.O.T. regulations

D.O.T. proper shipping name: Not regulated

Other requirements: N/A Australian HazChem Code: N/A

Report No.: ESUN2018022601-7E Date: Sep.26, 2019

Section 15. Regulatory Information										
The following provides a summary of the legal requirements.										
		EUROPEAN ECONOMIC COMMUNITY (EEC)				CANADA REGS				
Ingredient	EPA* TSCA	CA Prop 65	EINECS	European Community Standards	Listed as dangerous chemicals per ESIS	EEC Symbol	DSL	NDSL		
A. Methacrylated oligomers	Yes	No	Yes	None	No	Xi; Irritant, R36/37/38, R43 S3,S7/9, S20, S26, S29, S37/39	Yes	Yes		
B. Methacrylated monomer	Yes	No	Yes	None	No	Xi; Irritant, R36/37/38, R43 S3,S7/9, S20, S26, S29, S37/39	Yes	Yes		
C. H303, Photoinitiator(s) Yes No Yes None No H402 Yes No All the components present in this product at concentrations equal to or greater than 0.1% are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.  Substance Preparation Classification:										

## **FULL TEXT OF ANY R-PHRASES AND S-PHRASES:**

# Risk Phrases:

R36/37/38 -- Irritating to eyes, respiratory system and skin

R43 -- May cause sensitization by skin contact

## Safety Phrases:

S3 -- Keep in a cool place S7/9 -- Keep container

S20 – When using do not eat or drink

S26 -- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice

S29 - Do not empty into drains

S36 -- Wear suitable protective clothing

S37/39 -- Wear suitable gloves and eye/face protection

SARA 302: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302. Pursuant to Title III of the Superfund Amendments and Reauthorization Act of 1986, (SARA) and 40 CFR 372 Part 372, this product does not contain chemicals subject to the reporting requirements under Section 313. California Proposition 65: This product does not contain chemicals which are known to the state of California to cause cancer.

Report No.: ESUN2018022601-7E Date: Sep.26, 2019

# Section 16. Other Information

Abbreviations and Acronyms: None.

Other information not contained elsewhere: None.
