ABOUT ESSENCEAIRE AROMATHERAPY DIFFUSER:

TEI Spa misting technology allows you to enjoy the benefits of hydro and aromatherapy anywhere. The unique EssenceAire Diffuser offers an aroma misting technology through the vibration of water and ultrasonic waves allowing you to enjoy the benefits of hydrotherapy and aromatherapy in one. The EssenceAire is used to diffuse the scented oil into the water filled diffuser resulting in the release of mist into your living space. Learn more about the [Benefits of Aromatherapy](#)

FEATURES & BENEFITS:

Enjoy the benefits of hydrotherapy at home or in the office. This unique diffuser offers a misting technology through the vibration of the water and ultrasonic waves, you can enjoy the benefits of hydrotherapy and aroma therapy in one. As the diffuser operates, you can breathe in fresh, clean oxygen or add your own essential oils for a change in atmosphere. These elegant diffusers provide relaxation anytime and place. The disposable essence cups hold and separate the oils from the interior of the diffuser to avoid clogging the machine.

- Ultrasonic waves vibrate creating a micro-fine mist of oxygen

- Aromatherapy uses the benefits of essential oils for therapeutic purposes to alleviate stress and improve mood
 - 30 minute and 45 minute settings for convenience
 - Digitally controlled with auto shut-off when the water level gets too low
-

ESSENTIAL OILS:

Essential oils are stored in the roots, leaves, flowers, fruits and seeds of special plants. Aromatherapy is the inhalation of these plant oils, for improved physical, mental, and emotional well-being. By adding a few drops of Lavender, Eucalyptus or any preferred essential oil into the EssenceAire diffuser, you can provide both psychological and physical benefits. Essential oils can be used on their own for massage, aromatherapy and in laundry or with complementary diffusers, such as the EssenceAire to quickly and safely add an exhilarating scent to a room or office.

Benefits of Lavender Essential Oil:

Lavender is considered the most useful of all essential oils. Known to aid in the relief of headaches, insomnia, tension and stress, lavender's therapeutic properties have been well chronicled around the world. The essential oil of lavender is widely used for various illnesses and medical problems.

Benefits of Eucalyptus Essential Oil:

The health benefits of eucalyptus oil can be attributed to its anti-inflammatory, antispasmodic, decongestant, deodorant, antiseptic, antibacterial, stimulating, and other medicinal properties. The numerous benefits of eucalyptus essential oils include, but are not limited to, the treatment of respiratory problems, relief of muscle pain, releasing of mental exhaustion and the treatment of skin infections.

HOW IT WORKS:

Unlike oil burners, the TEI Spa EssenceAire electric aromatherapy diffuser does not use any flames, so it's very safe. The EssenceAire diffuser permeates a fine mist of your favorite essential oil through the air and one session may last up to an hour while Essential Oils scents may last an entire day.

DIRECTIONS:

1. Add tap water directly into the black diffuser tank to fill mark, which is a small silver sensor (approximately 1/2 an inch of water). Use only distilled, drinking or purified water in the diffuser tank, instead of tap water.
2. Fill the disposable essence cups with any type of water to the red line marked "Water Line". You can also add your favorite essential oil to add a nice aroma to the room. 2 to 3 drops of oil is sufficient.
3. Place the disposable essence cup into the diffuser tank. Insert the essence cup plastic guard to fit securely on the cup. Finally place the diffuser lid onto the top of the diffuser and insert steam directing cap. You may turn the cap to the preferred direction.
4. To turn diffuser and light on, slide the Power Switch on the cord to your preferred setting. Choose "CONT FOR 30 MIN" for a continuous mist. Choose "TIMER 15 SEC ON 30 SEC OFF" for intermittent misting of 15 seconds with 30 second delays, lasting a total of 45 minutes.

Once the water in the essence cups reaches a certain level, the EssenceAire will automatically turn off for your convenience.

REPLACEMENT ESSENCE CUPS:

Replacement Essence Cups are reusable and recyclable. They are designed to be used with one essential oil scent and cleaned after each use. Taking proper care of essence cups will ensure that they last at least 3 to 4 months before being replaced.

Unlike essential oil burners, the TEI Spa EssenceAire electric aromatherapy diffuser does not use any flames, so it's very safe. The EssenceAire diffuser permeates a fine mist of your favorite essential oil through the air and one session may last up to an hour while the TEI Spa Essential Oils scents may last an entire day.

The TEI Spa UltraSonic Diffuser is used to diffuse the scented oil into the water filled diffuser resulting in the release of mist into your living space. TEI Spa Technology allows for the electric aromatherapy oil diffuser to conveniently switch off automatically when the water level gets below a certain height.

STERILIZATION:

To clean your EssenceAire Diffuser, remove clear plastic cup, empty contents, wipe clean and set aside for future use. Empty water out of diffuser tank. Using a soft cloth, wipe the inside and outside of the diffuser tank. Plastic cups can be reused by emptying, rinsing and wiping out. It is recommended to use only one essential oil scent per cup. For safe storage be sure the diffuser is completely dry inside and out. Keep the lid on the diffuser tank to avoid dust and dirt build up.

STORAGE:

Wipe the body of the EssenceAire Diffuser with a soft cloth or neutralized cleaner to avoid exterior damage and maintain appearance. Wipe the metal vibrator inside the diffuser tank with damp cotton or a soft cloth. Do not scratch device with rough fabric, sharp tools, or brush with coarse tools. Keep out of reach of children. Only place Essential Oils in Disposable Cup. Do not place Essential Oils inside the of the diffuser tank.

TRUE RELAXATION WITH THE USE OF AROMATHERAPY AND ESSENTIAL OILS:

Traditional methods of aromatherapy don't give you the relaxing stress release that you love. Fortunately, the lead inventor of TEI Spa discovered a breakthrough in how we enjoy essential oils and humidify. Using Sonic Technology, EssenceAire's aromatherapy and hydrotherapy functions work to really release stress while infusing oxygen with the room. You will love the therapeutic benefits that alleviate stress and improve mood.
