# AcraStone™ Bathtub Construction

Manufactured utilizing our proprietary technology, you can count on your bathtub to be beautiful and dependable for years to come. No other bathtub, including our own cast iron bathtubs can beat AcraStone's features. Strong, thick, and warm to the touch, with a porcelain-like surface inside and out.

AcraStone™ is so strong it can withstand blows from a hammer without cracking or denting. No other bathtub in the industry can beat AcraStone's strength, not even a cast iron bathtub.

# Cast Iron Bathtub Construction

**DISCONTINUED**

American Bath Factory cast iron bathtubs are crafted from cast iron, with a vitreous porcelain interior and exterior coated with urethane enamel. The results create a cast iron bathtub that is durable and beautiful.
