

System Line 2 & Neutral must be connected for 120V input.

# HYDRO-QUIP

CORONA, CA (951) 273-7575

Manufacture Notes: #1 - Universal System, connecting the White/Component receptacle wire to the corresponding position on the Universal Terminal Block determines component voltage.  
 #2 - Low Current (heater off w/high-speed pump or blower) or High Current (no heater restriction)
