EVRI BATTERY

Introduction

EVRI by Dip Devices is a multi-functional consumption solution. EVRI features a universal battery that magnetically connects to EVRI attachments. EVRI attachments will evolve as consumption does, so the battery will never be obsolete!

1% of all EVRI sales will be donated to drug policy reform via MPP.org and SSDP.org.

#EVRIDIPCOUNTS

In the Box

1. EVRI Battery
2. Micro-USB Charging Cable
3. Information Card

Power Controls

○ ○ ○ ○ ○ **Power On/Off:** Press the button 5 times quickly

When an attachment is connected, the indicator light will flash once, either:

- Green: 51-100% battery remaining
- Yellow: 21-50% battery remaining
- Red: 0-20% battery remaining

Auto-Off Safety Features:

EVRI will turn off after 3 minutes (180 seconds) of inactivity
After 15 seconds of continuous use, EVRI will stop heating and the indicator light will turn off

Charging

1. Fully charge the battery out of the box.
2. Plug the charging cable into the micro-USB port to begin charging. The indicator light will turn red when the EVRI begins charging.
 - Fully deplete battery prior to charging EVRI.
3. The indicator light will turn green when the EVRI is fully charged.

Solid Color  Current Power Setting	Flash 3X  Attachment connected incorrectly or not present	Flash 3X  Battery is completely depleted
Flash 1X  51-100% Battery Remaining	Flash 1X  21-50% Battery Remaining	Flash 1X  0-20% Battery Remaining

Power Settings

To change the temperature setting, press the button 3 times quickly.

Indicator Codes

While in use: solid color indicating current power setting
 When attachment connected incorrectly or not present: 3 white flashes
 When battery is completely depleted: 3 red flashes
 When attachment connected correctly:
 indicator light will flash once, either:
 Green - 51-100% battery remaining
 Yellow - 21-50% battery remaining
 Red - 0-20% battery remaining

Safety

(Read the following safety recommendations before using EVRI)

1. Do not use EVRI while charging.
2. Only use this vaporizer with legal, safe, and natural concentrates.
3. Do not expose EVRI to water or other liquids.
4. Be sure to turn EVRI off (5 quick button clicks) when you are done using it.
5. Improper use, changes, or modifications to EVRI voids the warranty and could cause damage or physical harm.

Troubleshooting

If you're having trouble with EVRI, go to [EVRI.dipdevices.com](https://support.dipdevices.com), reach out at support@dipdevices.com, or call 844-922-VAPE (8273)

Warranty

Battery warranty covers manufacturing issues for 90 days. Attachments are consumable items and will only be replaced if they are not working out of the box. Please refer to our FAQ section for more information. (<https://support.dipdevices.com>)

EVRI VAPOR TIP ATTACHMENT

Introduction

EVRI by Dip Devices is a multi-functional consumption solution. EVRI features a universal battery that magnetically connects to EVRI attachments. EVRI attachments will evolve as consumption does, so the battery will never be obsolete!

The Vapor Tip Attachment allows consumption of concentrate directly from its container.

Basic Usage

- 1 Connect VTA to EVRI battery with the atomizer end closest to the button.

- 2 Hold down the button to power the atomizer.

DIPTIP
To keep the VTA clean, do not push the Vapor Tip into the concentrate

- 3 While holding the button, lightly touch the Vapor Tip to your concentrate. Inhale VERY lightly.

When battery is completely depleted: 3 red flashes

When attachment connected correctly:

indicator light will flash once, either:

Green - 51-100% battery remaining

Yellow - 21-50% battery remaining

Red - 0-20% battery remaining

Safety

(Read the following safety recommendations before using EVRI)

1. The Vapor Tip Attachment gets HOT! Do not touch it while using the product or for at least three minutes after use.
2. Do not use EVRI while charging.
3. Only use this vaporizer with legal, safe, and natural concentrates.
4. Never touch the Vapor Tip Attachment to anything other than concentrate, especially individuals, flammable surfaces, or your concentrate container!
5. Do not expose EVRI attachment to water or other liquids.
6. Be sure to turn EVRI off (5 quick button clicks) when you are done using it.
7. Improper use, changes, or modifications to EVRI could cause damage to the device or cause physical harm.

Troubleshooting

* 510 CARTRIDGE AND REFILLABLE POD NOT INCLUDED

510 CARTRIDGE + REFILLABLE POD ATTACHMENT

Introduction

EVRI by Dip Devices is a multi-functional consumption solution. EVRI features a universal battery that magnetically connects to EVRI attachments. EVRI attachments will evolve as consumption does, so the battery will never be obsolete!

The 510 Cartridge/Refillable Pod Attachment (510/Pod) allows for 2 consumption options on one attachment! Each side of the attachment has a connection for your favorite and standard products.

Basic Usage

510 CARTRIDGE

- 1 Connect 510/Pod to EVRI battery with the cylindrical opening end closest to the button.

- 2 Screw in your 510 cartridge

- 3 Hold down the button and inhale lightly.

REFILLABLE POD

- 1 Connect 510/Pod to EVRI battery with the rectangular opening end closest to the button.

- 2 Insert your refillable pod.

- 3 Hold down the button and inhale lightly.

Blue Low heat
Green Medium heat
Red High heat
