

# Step-up features:

**Timer with Auto Shutoff** stops under- and over-blending problems and lets operators multi-task while the blender is on.

**Cycle Blending** takes the guesswork out of popular drink profiles. Each cycle contains pre-programmed pulses & speeds that maximize results and minimize mistakes.

**Memory Card** remembers a company's unique drink profiles for consistent blending results every time.

**Jar Pad Sensor** helps prevent "wear and tear" from operator misuse. It turns the motor off when the container is not in place to reduce careless clutch grinding.

**Wave~Action® System** has a unique container and blade design for smooth results with no ice chunks.

**Hopper Sensor** prevents the lid from being opened when the machine is operating.

**Quiet Shield™ Sensor** prevents motor from operating unless shield door is closed

**Auto Blend** is a feature that stops the blender when drinks reach the perfect consistency to help prevent over-blending and watery results.

**Cavitation Control** automatically adjusts the blending speed if cavitation occurs to help prevent under-blending and minimize blending time.

**2 Speed Jump Cycle** automatically jumps from low to high speed.

# Which Blender is Right for You?

# 908<sup>®</sup>

# Rio<sup>®</sup>

frozen drinks  
like margaritas  
daiquiris & pina coladas  
*for use with crushed ice*

# Tango<sup>®</sup>

smoothies +  
frozen drinks  
*for use with crushed & half cube ice*

# Tempest<sup>®</sup>

smoothies + frozen drinks + coffee  
*for use with full cube ice*

# Summit<sup>®</sup>

# Revolution<sup>®</sup>

### HBB908 Series<sup>†</sup>

25 second daiquiri  
400 Watts  
3/8 Hp  
1.25 L polycarbonate  
rubber clutch

### HBB250 Series\*

20 second daiquiri  
450 Watts  
1/2 Hp with pulse  
1.25 L polycarbonate  
rubber clutch  
Wave~Action<sup>®</sup> System  
jar pad sensor

### HBB250S Series\*

20 second daiquiri  
450 Watts  
1/2 Hp with pulse  
.95 L stainless steel  
rubber clutch  
Wave~Action<sup>®</sup> System  
jar pad sensor

### HBH450 Series\*

15 second daiquiri  
600 Watts  
1 Hp with pulse  
1.4 L polycarbonate  
metal clutch  
Wave~Action<sup>®</sup> System  
timer/  
auto shutoff  
jar pad sensor

### HBH650 Series\*

12 second daiquiri  
1,000 Watts  
3 Hp with pulse  
1.8 L polycarbonate  
metal clutch  
timer / auto shutoff / jump cycle  
jar pad sensor  
Wave~Action<sup>®</sup> System

### HBH850 Series\*

12 second daiquiri  
1,000 Watts  
3 Hp with pulse  
1.8 L polycarbonate  
auto blend  
timer/  
auto shutoff  
cavitation control  
cycle blending  
Quiet Shield<sup>™</sup> sensor  
converts to under-counter  
metal clutch  
Wave~Action<sup>®</sup> System

### HBS1200 Series\*

15 second daiquiri  
1,000 Watts  
3 Hp  
1.8 L polycarbonate  
metal clutch  
Wave~Action<sup>®</sup> System  
auto shutoff  
memory card
